# Digital art

The Digital Art workshop allows participants to create a design on an iPad using the Procreate app, and then transfer that image onto a tshirt using sublimation printing.

The core equipment to run a workshop at your IKC is:

- iPad with the Procreate app installed
- Stylus (optional but recommended)
- Sublimation printer and blank transfer paper
- plain polyester tshirts
- a laptop for printer operation
- Heat press and instructions
- an interactive screen for demonstrations
  - Notes and Links Handout
- [Protecting your personal information online](#)
