

Pocket Cinema

SLQ Wiki Fabrication Lab 2026/02/25 22:16

Pocket Cinema

The Pocket Cinema workshop guides participants to make films with smartphones or tablets, focusing on storytelling and creativity, with minimal gear.

We learn about essential equipment, filmmaking techniques and effective storytelling.

The core equipment to run a workshop at your IKC is:

- iPad with the iMovie app installed
- iPad tripod (if available)
- Rode audio kit (if available)
- an interactive screen for demonstrations
 - Notes and Links Handout
- [Protecting your personal information online](#)
