Event Coordination Schedule

Below is a google document, embedded as table that breaks down the range of activity types approved for Fun Palace this year. Its suggested that as workshops are locked in and details established all this information is added to the relevant master google document as an up-to-date and central repository truth. This table contain links thru to individual pages for each of the activities.

The master google document for the Event Coordination Schedule can be found here: [Event Coordination Schedule](#)

The google document for the Fun palace Program can be found here: [Fun Palace Program](#)
