Grampus Filters

Grampus Augmented Reality

To create an interactive element that's hands free (Covid safe!), there will be a vertical digital screen (TVs/Monitors) that will be used to display Snap Camera and a range of AR 'costumes' inspired by the Grampus Imagined Things.

Costume Ideas

Wobbly Tooth Shark

The Wobbly Tooth Shark was used as a test model for a Snapchat lens to show the capabilities of applying one of the 3D models we already had created to create an interactive Grampus costume.

Idea - Shark head

3D model - completed and used for prototyping

ROCU No Name

Idea - Antlers and Beard, maybe tiny arms on face

3D model - Antlers completed and used for prototyping

Dragon Koi Cave

Ideas - Koi kites/dangling from head or held with hand, Dragon head

Glitch Forest

Idea - Mushroom/Plant growth or mycelium hands

A Little Like Alice

Idea - ???
