# QUT Designed Thing Report 1

## HERE LIES THE ENTRY FOR A DESIGNED THING

<b>Full Name:</b>	Owen
<b>Provide the link or name of the Imagined Thing from The Well you are responding to?:</b>	@@Provide the link to the Imagined Thing from The Well you are responding to?@@
<b>What is different about your idea from the original Imagined Thing?:</b>	The design of the creature is shifted into a more feasible physical realisation, more box-like and without the tentacles
<b>What is similar or inspired by the Imagined Thing:</b>	Maintained the original benevolent watcher concept from the story and the general design of an ethereal creature with prominent eye symbology
<b>Provide a brief update on your progress:</b>	The lantern based on this design is completed, including the shadow silhouette of the lampshade and the structural integrity of it, ready to be fixed with a light bulb if that is the direction it goes.
<b>What new thing did you learn as part of the process:</b>	I was able to learn some basic techniques when building with cardboard materials and considerations to be made when dealing with specific tools - e.g. curved cuts with box cutters are very difficult and potentially dangerous, as such angular designs should be used when able.

Your files can be found here:
