Full Name: Hyunjoo	
Thing from	#67. Glitch: https://wiki.slq.qld.gov.au/doku.php?id=engagement:grumpus:grumpuslandonline:rrldev:thewell:imaginedthing67 & #69. The Great Darkness: https://wiki.slq.qld.gov.au/doku.php?id=engagement:grumpus:grumpuslandonline:rrldev:thewell:imaginedthing69
What is different about your idea from the original Imagined Thing?:	We have expanded the glitch idea and invasive fungi part respectively.
What is similar or inspired by the Imagined Thing:	These special-effect / sculptural concepts are being conjoined to form an immersive, forest environment imagery of mushroom and mycelium with glitch effect.
Provide a brief update on your progress:	In Digital Fabrication Team, I have assisted in the mushroom's prototype making process by vectorising the shapes in PDF (exported from SketchUp) into AI file; this optimised the laser cutting process. In Projection Team, I have experimented with After Effects animation to come up with the initial floor projection: https://drive.google.com/file/d/1JyeoS1Wn9XNZCeMBoywEqqMNDAS1z0Qz/view?usp=sharing
-	I have gained basic understanding of preparing vector document for laser cutting, as well as using After Effects & MadMapper.

Your files can be found here:
