ARCHIVED: 3D printing inductions

Deception Bay flexi school coming in to do inductions at The Edge in preparation to make 3D printed characters the following week.

The Plan

(8 young people 2 teachers)

Meet in the foyer. Introduce self and The Edge. Then everyone will introduce themselves.

Tour of the Edge

Sign up as new users

3D printer induction begins, using this format: [ARCHIVED: 3D Printing Induction](#)

Reflection

The group was focused and engaged. They particularly enjoyed using Tinkercad and seeing the objects they were making from different perspectives.

Not everyone was able to print their key rings. We will continue the printing and take them out next week.
