

Making the Apocalypse

SLQ Wiki Fabrication Lab 2026/01/18 17:18

Making the Apocalypse

These sessions are dedicated to the making of the ideas that have been designed. This includes the tech elements as well as the physical set designs.

Making sessions At Deception Bay

making sessions At The edge

At The Edge it was decided upon to do these sessions on Saturdays. This decision was made so as to have the support of the wider edge maker community and more staff available. The fabrication lab is open and many regulars come in and will be interested to get on board.
