Drop in Making Session 3

Prep

Mick cut out the frame on the CNC

chips

cold water and glasses

box cutters and cutting mats

cardboard (of different gradients)

hot glue (plenty of glue sticks)

The Plan

Community groups in the morning to work on putting the bone structure together.

Drop in session in the afternoon

The Process

working with community to put the frame together in the morning

continue making in a drop in session where the larger community came in
