

Installation: Phase 1

SLQ Wiki Fabrication Lab 2026/04/13 09:41

Installation: Phase 1

Before installation week we decided to build Pluto in The Edge space. This was done for a number of reasons:

1. To get ahead in the installing process
2. To build awareness in the space about what was coming (we did up a sign for in front of the window bay)
3. The large scale sign was also on display for the same above reasons in the main part of State Library

See photos of that process here:
