Content Development 2: Intermediate Arduino

Monday 9th July 4-7pm

This was a full session of 15. With many of the participants coming back into The Edge over the next few days to finish and perfect their work from this session.

The Plan

As a group see the robot

- some examples of editable code will be available.
- working with the robot - interaction. mp3 player, motors and lights.
- Demonstrating each of these and giving the code to edit by themselves.
