

Light up The Edge Making session

SLQ Wiki Fabrication Lab 2026/06/11 10:12

Light up The Edge Making session

This was to be the final making session leading to install. The timeline was pushed back to give the facilitating artist time to design and make the main components to the installation.

The Plan

Nathen to share where he is up to

Everyone to work on their individual boxes

To share them with the group

Materials

In a Bay Window- table and chairs

vinyl cutter

Have the 8x8x8 acrylic cubes cut and ready for participants

Have black vinyl ready with all vinyl materials ready

box cutters

scissors

cutting boards

scanner

computer

printer

Reflection

There were 12 people in attendance in this session. The space was full and everyone got into working on their cube that had been cut and made over the week. Nathen shared what he had been working on with mirror acrylic ideas and kaleidoscope. He had chosen to confine the acrylic to silver and black. People also wanted to have colour so they chose to colour in with textas and pens. One community member had been working on their art and Nathen scanned it into the computer and printed it out to be then stuck onto the cubes. One community member who has been coming to each session of this series brought along crackers and dip to share with the rest of the group.
