

QPASTT Session 1

SLQ Wiki Fabrication Lab 2026/06/11 08:50

QPASTT Session 1

A group of young people will be engaging at The Edge in a hand tools induction and then applying these skills by fabricating GGR designs.

The plan

9.30am (Thursday 9.30-2.30pm)

Andrei will do a tour of the edge with 15 young people and 5 volunteers that will be attending.

Em set up sewing machines

Mick to get hand tools induction ready

10am- 12pm

- Edge safety chat in the Fabrication Lab

break off into two groups for handtools and sewing

12.pm lunch break

12.30- 2pm

Come back together and work on making the following for GGR (break off into 4 groups)

- capes for the apple people (sewing group to work on this)

- cut moon wraps and make craters

- Lollipop trees

- Snot blurping monster

Reflection

This was such a fantastic day! Everyone was engaged from the get go. Everyone decided that they would like to do the hand tools induction and got stuck in straight away. Once this was completed and everyone had made a light up badge we moved onto making various Great and Grand Rumpus installation pieces. Again the group group jumped in and used hot glue, box cutters and were creative in their idea choices.

We will be following up with links to more Great and Grand Rumpus program opportunities for the group as well as they will begin the CCC program next term as well!
