Shark Mouth- including digestive tract

About

Idea brief: [IDEAS BRIEF 1: Wiggly Tooth Shark](#)

The Shark was one of the first designs that came across to The Edge. It has undergone many iterations to become what you see now. Two education students from QUT, Toby and Brianna spent time imagining and designing the shark in the first instance with some amazing ideas of a rocking system. Then George and Kasey picked it up and worked with the joins and to make it more accessible friendly. Then the final design landed with Gregory cutting it on the CNC.

Story #1045-6 Wiggly Tooth Shark

Snapsucker, knacker-knocker, let me in. How many pearlies make a grin? Wobble-bobble, bass and treble, twist and shout. Step inside, pull my tooth, and let's find out.

Ideas by Elizabeth (5), Lucas (4), Jack (6) and Amelie (6).
Designed by Breanna, Toby, Kasey, George, Diane and Markus. Made by Sam, Ted, Laust, Jo and Jennifer.
