Good morning robot team. I have just checked the first file issued. I am able to get to CAM software. Looks great!

To make my job easier, please make sure the outputted files are in DXF format (version 2000). Also please make them 1:10 scale.

Remember Thursday morning is when I am booked to cut the files.

I look forward to seeing the rest. :-)

**Thurstanh** 2:33 PM

@Diane The design hidden by the brief had a zigzag mouth. I think it looked more upset than mad.

As for the head. I'm going to make it flat, so that from outside it is a 'boring box' inside is where it is happening in the robot 'brain'

**Diane**

Thurstanh, I like the thought bubble idea. And I agree about making the head flatter. The original hidden drawings didn't have mouths but I
