Laser Cutter / Engraver Workshops

Laser Cutter / Engraver Workshops

Below you will find a collection of our workshops that are related to the laser cutter.

This wiki also holds a full list of all our [workshops](#) which talks you through how we categorise workshops by their completeness.

TwinDeck 1210 Drawing machine

Use laser cut parts, bolts, nuts, washers, electronic components, a small DC motor and patience to construct a machine that draws Guilloche patterns of almost infinite variety. [learn more](#)
