SLQ Wiki 2/2 Sheet Stock Storage

## **Sheet Stock Storage**

Off-cut and odd size sheet storage for the Fabrication Lab Machine Shop, cut on the Mutlicam CNC with 15mm plywood. Two versions have been output, V1 has no back for deeper sheets.

V2 has no centre shelf for taller sheets.

### **Design and Cut Files**

#### **Fusion 360 Model**

The fusion360 model can be viewed and download from here. Use this file if you want to change dimensions or stock, etc..

http://a360.co/2FlvUEP

#### **DXF Files**

Use these files to cut on a CNC.

**DXF** files

for V1

**DXF** files

for V2 - with no shelf.

#### **V** Carve

Use these files to cut on State library's CNC at The Edge.
