

Getting Started

SLQ Wiki Fabrication Lab 2026/01/13 09:24

Getting Started

Not sure where to get started on your visit to The Edge?

There's a range of activities you can drop by and have a go at, even if you haven't been inducted into some of the equipment and if you're visiting for a short time or longer visit, come get creative in the lovely air-conditioned space with Brisbane city and river views.

We've got a selection of fun ideas listed below, click on each for more info, or explore the Wiki further and have a look through our collection of CC licensed workshops.

Meetups & Talks

Come along to our [meetups](#) or [talks](#) and introduce yourself to the community and staff.
