Tagging

SLQ Wiki Fabrication Lab 2024/05/25 04:46

Tagging

We can use tags to:

- audit current content:
 - identify existing ip to be documented as content on the wiki
 - identify what work needs to be done to bring existing content up to minimum spec
 - identify gaps in content and propose how these maybe resolved (whether as an internal work package or by engaging partner org/ volunteer to work on this)
- Identify a potential key audience segments and define their information and usability needs
- apply style guide to determine minimum spec of content readability, clarity, truth/ relevance, usability as a resource
- identify the work required

We are using now the tagging plugin ¹⁾. This plugin uses a separate form that appears on the right sidebar, instead of embedded syntax in the page (which can be slow to load, update, and delete).

- Remember that spaces and commas make a new tag, so use underscores or no spaces in your tags.
- Clicking the tag admin button lets you edit the tags in the sidebar.
- With the admin button off, clicking a tag will search for that tag.
- Tags are searchable with the # symbol in the main search.
- you cannot add tags while others are editing/viewing the page

Please use the list of tags below.

Tag Category	Tag value	Comment
Content Type	idea	ideas
	planning	planning
	release	release
Content Status	complete	Final
	development	A working version
	discussion	requires discussion
	context	
	needs_work	
	incomplete	incomplete - half finished
	incomplete	incomplete - needs further detail
	out_of_date	out of date info
	up_to_date	up to date
	to_be_moved	Not in the right section - Relevance
	duplicate	Duplicate of other content
	needs image	needs photos/diagrams
	Stub	Barely started
	Orphan	not connected to anything
Action	revise_style	Hard to read
	revise_format	needs reformatting

	move	content is in wrong section
	considerdelete	Probably not wiki content
Author	internal_dev	
	external_dev	
Audience/ interest	SLQ_internalonly	
	PL_connect	Library/local council
	facilitators	for facilitators
	HtE	Community
	makerspace	makerspace
	public	general QLD public
	primary	primary students
	secondary	secondary
	tertiary	higher education
	edu	for educators
	CommunityArts-Dev	

Tagging Admin

You can manage all the tags for the entire wiki below.
