RevealJS (Slide show)

SLQ Wiki Fabrication Lab 2026/04/16 08:15

~~REVEAL~~

RevealJS (Slide show)

Add

```
~~REVEAL~~
```

to a page to insert a button for presentation start.

Every new H1 or H2 section(6 or 5 equals signs), which on your page will look like this:

This is a H1

Creating a horizontal slide

This is a H2

Also creating a new horizontal slide

New H3 sections (4 equal signs) are appended vertically if they follow after an H2 section.

H2

Only H2 sections open the vertical axis. If an H3 section follows after an H1 section it is appended horizontally.

Slide Controls

Your slide show will autoplay, press space to stop

You can use the escape key to view your entire slideshow as a layout

Examples

Many workshops use slides shows for presentation - as does the fabrication lab signage.
