

LEGO BUILDER

SLQ Wiki Fabrication Lab 2026/01/24 00:30

LEGO BUILDER

Lego is a great way to relieve stress and engage in meaningful and joyful conversations. As children comment on their Lego creations, they develop important communication skills including the ability to explain ideas, describe their work, talk about the process and verbalise challenges that they had along the way. These little plastic bricks bring a world of imagination and fun to your environment and have never-ending potential.

Resources

Below you will find links to resources that can help to challenge you with your Lego building and develop your design skills:

- [Lego Maze](#)
- [Disaster Island](#)
 - Let's Build Cards
 - [Lego Spinner](#)
