SCRATCH PROGRAM'S

On this page you will find a variety of information to get you started on your journey with Coding using Scratch. This online platform is a great way to introduce creative thinking into your digital programming and coding adventures.

For more information visit the [Scratch](#) page on SLQ Wiki.

Creating a Scratch account

Open your internet browser (explorer, chrome, safari etc) and go to the Scratch website below;
<https://scratch.mit.edu/>

- Once you are on this page you will see a **Join Scratch** button in the top right hand corner.
- Follow the prompts to create your account.

Saving and downloading a project to your computer

1. CLICK: File
2. CLICK: Save to your computer
 - Make sure to download a .sb3 file
 - If your file does not say .sb3 at the end just type it in yourself > Test.sb3
3. CLICK: Download from your computer
 - Go to the location your file has been saved too
 - Click on your file
 - Click open

Resources

The following links will lead you to a variety of Scratch Programming ideas. Feel free to give them a go and use them as a starting point to develop your own Scratch coding.

- [Scratch Programming ideas](#)
- [Hide and Seek with Gobo](#)

- Music Cards
- Animate a character
