ZENTANGLES TUTORIAL

Zentangles are a creative way to relax the mind while producing beautiful images using patterns and colours. Do the session by yourself or have some relaxation time with friends. Here you'll find a tutorial video you can work along with and handy resources you can download to create magical artwork. When you are finished, share your masterpiece by uploading a photo of your work onto the Speak Up Isaac platform in our online art gallery.

Tutorial Video

This will be released early December for school holiday fun.

Resources

Here you will find further information on patterns and design tips to help turn you into a Zentangle master.
