- 2023 development and delivery by Michelle Brown in collaboration with YPF for spring holiday program

Workshop presentation

Coming soon!

Design File Templates

Community library design

Template	Material	File
Base library design - All 4mm pieces (fit parts to A2 sheets)	4mm ply	comlibrarybasenookall080923.pdf
Window, swing doors and rails (fit parts to A2 sheets)	1.5mm ply	comlibrarycasementsrails080923.pdf
Windows and stain glass (read notes in file)	0.75mm PETG	comlibrarywindows080923.pdf

Material cutting notes

Be aware that the PETG will buckle and warp with the detailed engraving and you will need to pay close attention to the laser, pausing and keeping the sheet taped to the honeycomb frame where possible. Quick cuts of each piece then wait for 5 mins or till cooled to do the next piece.
