

The background is a solid teal color. It is decorated with a pattern of faint, white line-art icons. These icons include various architectural elements like floor plans, elevations, and 3D blocks, as well as design tools such as pens, pencils, and a paintbrush. A circular logo with a stylized 'L' and 'Z' is also visible in the upper left.

## Material cutting notes

Current working file for windows with engraving (clear acrylic or PETG), tested with 1.5mm acrylic and .75mm PETG, both look fine but the PETG works best since it's thinner, but be mindful of warping, quick single cuts that are separated by a good distance are best, and remove any plastic covering before cutting.

### STANDARD PATTERNS OF CASEMENTS.

Patterns 1, 4 and 5 appear to be the most used types, although in the better class homes No. 9, 10 and 15 are very popular. Prices vary considerably, 1 to 5 being practically the same cost with varying prices for other styles.
