NAO Cadet

NAO Cadet is a combination of a Choregraphe app and Android/iOS/Web app that allows young kids to program the NAO using block based programming.

Usage

Upload the [Choregraphe app](#) to your NAO and launch it by saying the keyword *cadet*. The NAO will announce its web address which you can connect a web-browser and start coding!

Alternatively with the choregraphe app running, launch the [Android](#) or [iOS](#) app to start.

Downloads

- [Choregraphe App](#)
- [Android App](#)
- [iOS App](#)

Support

As NAO Cadet is an opensource product, support is provided over on [GitHub](#). There you will find more information around installation and usage, tips and known issues.
