Be Connected Digital Mentoring

Welcome to the Be Connected - Digital Mentor online train-the-trainer program.

The program is your pathway to being a digital mentor to those in your community who would love to broaden their digital horizons. You will also be equipped to on-train other digital mentors to build capability across your team, in the exciting and valuable skills required to share knowledge with those new to the online world.

The course modules are browser-based modules and can be accessed in web-browsers on desktop and laptop computers and tablets. Desktop and laptop access will provide the best experience, but if using a tablet, the course content is customized for landscape use only. For best results, Chrome is recommended.
