Apocalypse thinking

This stage is all about ideas and testing ideas!

Process @ Deception bay Library

Process @ The Edge

First up there were Zine Workshops at an event at the edge

[Apocalypse Zine Workshop](#)

Then 2 Apocalypse thinking meet ups.

1. [Apocalypse thinking](#)

2. [Apocalypse thinking](#)

This phase follows a creative process lead by staff. The process focuses on prototyping and testing ideas that may or may not be useful in the larger One last Apocalypse project. The central idea is to start thinking about what is possible without getting caught up in it having to work immediately.
