Wilston & Sunnybank Men's shed

After working with the Men's Sheds over 5 weeks we have successfully transitioned a number of them into engaging further in their interests and coming in during open lab times to do two things:

3 x Sunnybank men are coming in and doing the self paced CCC program on a Wednesday open lab and during hack the evening on a Thursday night.

3 x Wilston men will come in on Thursday night to hack the evening to do an induction on the 3D printers.

on the 4th October both the Men's Shed groups as well as Albert Park will recommence coming in on a Wednesday morning.
