Stitching Using the Gear 360 ActionDirector Software

Make sure to connect the Gear 360 to the computer before proceeding. The Gear 360 ActionDirector software saves stitched files automatically. The stitched files are saved under Documents > Cyberlink > Action Director > 1.0 > 360.

- 1 Using your computer, click the Start button.
- 2 Click All apps.
- 3 Scroll to and click CyberLink Gear 360 ActionDirector.

4 Click Gear 360 ActionDirector.

5 Click 360 VR Video.

6 Click the Import icon.

7 Click Import Media Files.

8 Double-click Gear 360 under Devices and drives.
