

The Edge Equipment Guide

360 CAMERAS

An omnidirectional camera, also known as 360-degree camera, is a camera having a field of view that covers approximately the entire sphere or at least a full circle in the horizontal plane

THE EDGE 360 CAMERA KITS INCLUDE:

- 2 x Insta360 One X2
- 2 x Insta360 One RS

Each come in a hardcase with USB power cable and protective lens cap and micro-SD card. The cameras need a device with the **Insta360 app installed** to work.

USER GUIDE:

- Book a camera for use via the State Library website.
- If you don't want to install the app and use your own mobile device, book one of The Edge iPads which will have the app installed.
- When you arrive at The Edge, let Reception know about your booking and they will retrieve the equipment for you.
- The camera files can save direct to the connected mobile device, but a SD card is required, please see staff if you need one to use.

TROUBLESHOOTING:

- Try restarting the camera
- Ensure it has enough charge
- Make sure the correct device is connected in the app
- See a staff member to see if they can help.

Insta360 App connection guide

If you are using your own device download the Insta360 app. It is the one in the app store that just says 'Insta360' and has a yellow circle.
