

ACTIVITY 7 - 3D PRINTER WORKFLOW

We've identified four key stages in the 3D printing process. Each stage is listed below, with a number of consecutive steps. Put each step in the correct order, by placing a number in the corresponding circle.

1. GET THE 3D PRINTER READY

- 4

Check the 3D printer is extruding correctly
- 2

Switch on and initialise the 3D Printer in Up Studio App
- 3

Check there is enough filament to complete the print
- 1

Insert the perfboard into the print bed

2. PREPARE YOUR DESIGN FOR PRINTING

- 3

Orient, scale and place model for efficient printing
- 2

Import the CAD model into the UP! software
- 1

Design a model in CAD and export for printing
