

ACTIVITY 6 - IDENTIFY 3D PRINTER SAFETY/OPERATIONAL TIPS

Using the safety tips on the right, identify what component it relates to by writing the safety tip number in the relevant circle.

SAFETY/OPERATIONAL TIPS

- ① Crush Hazard! Moving parts don't stop for fingers
- ② 250°C+
This will burn. Turn off & allow to cool before handling
- ③ Replace perfboard carefully. If steppers slip the print will need to be reinitialised
