

Transcript of Government Evacuation Announcement

Citizens of Brigdon, this is an official announcement on behalf of the Government of President Usain Orwell. A city wide evacuation is now in effect. As a result of a rogue state being established beyond our frontier, Brigdon is now in a state of emergency. Currently, we are being attacked by a force, the likes of which, we have not seen. We are powerless to close down this newly created citadel, whose AI capacities exceed our own. Please proceed quickly to the nearest transportation out of the city, and attempt to avoid areas that have been struck by missiles. Due to the enemy's implementation of chemical weapons, Citizens are advised to cover their mouths with fabric, and take shallow breaths.

Authorised by the state government of Brigdon
